

AL182011_AL061926 | Independent continuous
input 31/27; output 8/7, k=8
 $\alpha=0.5$; $\delta=(27.787, 35.39, 785.745)$ projected km

validated | Common basin projected coordinates; all supplied vertices.
Discrete output coupling 769.441; threshold 785.745.
